

This proposal would eliminate a serious abuse of the application process. As it stand now, some prople are filing as many as a hundred applications in one day.

The issuance of "Vanity" call signs is intended to be a fair, unbiased, and UNWEIGHTED drawing by lot, and at present those who file multiple applications take an unfair advantage over the rest. This also results in a very heavy workload for Commission staff, in handling all those superflous applications. I hereby urge passage of this RM, allowing ONE applicatiopn per day per person. Thanks for your consideration.
